

President

The President's **STEERING COLUMN**

Mary & I cancelled Feb. meeting because of snow. Studebakers don't like snow . Last month the SDC wanted a report on how many members we have lost over the years. I would like to say a lot over the years since I was a kid in the 70s . I think we peaked out around early 80s and have been on a down hill slope from there. And now for the good news. The snow is gone and it is time to clean the dust off your cars, tune them up get them out, and drive them. As for my 62 Lark, it's coming along fine. Ran out of parts and am now waiting for parts . The first lady is mad at me because there is dust on my new paint . The March meeting is at the same place same time same day but different month . Myrna and I will not be attending the meeting. We will be in the Philippines getting warm and drinking something cold .

Thanks,
Jerry

Still a few of you have not paid their dues yet.

Your dues are due, and for a mere \$12 you will continue to receive this marvelous magazine for another year. Greta will be happy to take your money. See page 11 for address.

MARCH MEETING

When: Sunday, March 10th at 1:00 pm

Where: Fall City Roadhouse,
4200 Preston Fall City Rd SE, Fall City, WA, 98024

(at the corner of Redmond Fall City Road and Preston Fall City Road)

SECRETARY'S SCRIBBLES

According to the calendar February is the shortest month of the year. This year February seems very long. Our February meeting was canceled because of ice and snow and I'm told that this is the coldest February on record. Global warming is brutal! I didn't even go to the Early Bird swap meet this year; too cold. I don't remember the last time a that I have missed a swap meet that close to me. All this gives us time for indoor car related activities between snow shoveling times. A good time for planning the outings we will attend when days are warmer. And a

good time to get some work done on our cars if they are in a place with at least some heat. I have made some progress on my "new car" and on my '37 as well. I have however spent almost as much time working on the 2 furnaces in my shop as working on cars. I have been able to keep one of them working all month even though not always the same one. In March we will be doing the planned February meeting on the same numbered day, at the same time and the same place. See you there with more tall tales of work done on my Studebakers.

An old classmate of mine from Norway just sent me a 1947 Studebaker advertisement brochure . This is the back page and the front page is shown on the last page. Most of you will probably not be able to read it but Rick might. Odd (your editor)

EDITOR'S CORNER

As many of you know, I have been restoring a '51 convertible basket case. In that process I started looking for wheels. None of the baskets had what I would call usable wheels. And over the years I have read all these articles saying you really should not use the original wheels anyway if you intend to put radials on it. And I do intend to put radials on it. There is a danger of the old wheels cracking and other bad things with the flexing the radial will cause. Yes, I am guilty of using radials on the 40, the other '51 and the '54 with original steel wheels. So far so good. Anyway, I was doing a little research on appropriate wheels for this project, using 205/15/75 tires. The original wheels are only 5" wide and the ideal tire width for that is 165 or 175 with maximum width of 185. Good luck in finding a radial tire with the appropriate diameter and width. (7.10 x 15 was the original tire size for the Commander and 6.70 for the Champion). The height of those tires are 29.28" and 28.75 respectively. Now finding the right height in a radial is about impossible without going awfully wide. 205/15 height is 27" and 225/15 height is 28.3". The 225/15 might be a good compromise, but I think I prefer the 205/15. The speedometer will be off by 7-8% and the car will sit an inch lower. (That will improve the looks I think).

Now where would I find a wheel that fits? According to my table rim width of 6.5" would be ideal, 6" rim would

be the smallest I should go.. Maximum tire width for a 6.5" rim is 215 according to my table. So where to find one? I have seen many places that recommend using older Ford wheels but I would prefer new if I could find them. I was checking tire stores without much luck. Searching all over the internet without much luck either. December TW had a CO-OP article on the subject. Using the part number listed, I could find them in Canada. But would rather not deal with cross border duty and freight. Then somehow I found them at Walmart of all places. Not sure how that even happened. I never shop at Walmart, but I guess I now do. Go to the Walmart site and search for X40709. \$60 with free shipping. They are 6.5 inches wide, and I think they come from "Only Wheels Online"

They are painted black, which according to my 1951 information guide was normally the color for cars with full wheel covers.

Odd

Since I am in the process of restoring my 1951 Commander Convertible, I will at times try to keep you updated on the progress or the lack thereof. I decided to do a frame off restoration, and below is a picture of the starting point, just after sandblasting. Actually it was quit a bit of work just to get to this point. More on that later.

And if you would rather not see me rambling on on this project, just tell me.

Odd

Studebaker Drivers Club

**The 2019 Pacific Can Am Zone Meet welcomes you to join us
in Bellingham WA July 5-7th**

**Studebaker Drivers Club
Pacific Can Am Zone Meet**

July 5-7th, 2019
Bellingham, WA

Hosted by the Whatcom County SDC and North Puget Sound SDC

A great gathering you won't want to miss!

As historic Studebaker's throughout this zone (Oregon, Idaho, Montana, Alaska, Washington and BC Canada) descend upon Bellingham, we also invite anyone to come from far and wide by planes, trains and automobiles. The newly remodeled Bellingham headquarters hotel (Best Western Plus Bellingham Airport Hotel) will have a shuttle van from the Bellingham Airport and Amtrak Train Station.

Whether you plan a scenic drive, a train ride, or fly in, the Hotel is very conveniently located off I-5, just 20 miles south of the border in Bellingham, WA and provides a free buffet breakfast for their hotel guests.

There will be plenty of reserved Studebaker parking, space for car trailers, a large Swap Meet area and a Hospitality Room with refreshments waiting for you.

Friday night will begin with a Cruise to Grants Burger Drive Inn. The Saturday Show and Swap Meet will be followed by a Banquet, Raffle and Awards Presentation. Sunday will be an optional visit to Bell's Studebaker Diner & Museum.

Show registration includes:

- Friday Night Cruise to Grants Drive Inn.
- Entry of your 1st vehicle for display and judging.
- 1st swap meet space free.
- Hospitality refreshments..
- Sunday Cars & Coffee event at Bell's Studebaker Diner & Museum

Banquet and Raffle tickets available to purchase. Special Edition T Shirts are also available to purchase.
